### Surname List

Following is an index of the surnames found in the Manuscript File in the Genealogy Department of the Largo Public Library. The actual files include such material as DAR applications, family group sheets, pedigree charts, and family histories. The material has been collected over approximately the past 15 years.

Included in this listing in addition to the surname is the primary state or county in which the family was located (this is the place to which the bulk of the file applies, other locations can also be mentioned), the earliest date of the material included in the file, and the number of pages of material in the file. All of what is presented is meant to help you decide if the listed surname is applicable to your research.

The Manuscript File is easily accessible at the library. If you need assistance, call on one of the consultants working at the genealogy desk.

You can use the below quick access chart to get to the beginning of each letter in the list by clicking on the link.
