

Every name index to volumes 1-7 (new series) 2004-2010 OBBFHA Newsletter

The following index includes cross-references between the maiden name and married name for women when both are known. Where the maiden name was known, but not a part of the newsletter article, the maiden name appears in brackets. Where the maiden name was part of the article, it appears in parentheses.

Many of the German names were reported in articles on original records with spellings different from that used by the family currently. When the spelling is close, the variants are added in brackets after the most common/modern spelling. When a variant is vastly different it is cross-referenced to the more common/modern spelling.

An effort has been made to consolidate the references to individuals who appear in more than one volume of the newsletter. Annual newsletter surname indexes are published in the Winter (January) newsletter (ie: the index for 2011 will be published in the Winter 2012 newsletter).
