**Franklin Academy Student Enrollment**  
**Franklin, Nebraska**

At the Franklin County Museum, there are two drawers from an old filing cabinet that are labeled as “Franklin Academy Enrollments.”

[Lynn Chase](#) has indexed the names along with all the other information in the files and has also cross referenced married names from the files. There are another four drawers that Lynn hopes to check out when she gets a chance. She believes they are teachers and gifts to the Academy, but does not know for sure.

We know that this index is not complete, because there are names that are not in the index that should be but, it is a good start!

Thank you Lynn for making this valuable Franklin County resource available to us all!
