

GREENLAWN CEMETERY - Section 1& 2

The Garfield St. Gate is the closest entrance to get to this section. Turn at first right and go north past Section 3/City North and Hale Lane. You will be at the east end of Section 1 & 2 where the reading starts. The delineation between 1 & 2 is blurred by placement of lots and graves and is no longer visible. The stones were read starting at the NE corner, reading the first row N to S, the second row S to N, and so forth, although this was not always be exact if graves were not in line. This section was read by Jack Sheets in 2001 and includes only readings of burials of the 1900s.
