Notes

1. Total Amount = Round-trip miles * Factor * Price of Fuel
2. The total amount (+ rare parking fee) is shared equally by everyone in the car
3. Passengers also pay their own walk-on ferry fare, any admission, and duplicating fees
4. Fuel price to be taken from Naomi's by Ken's Korner
5. Fuel price is based on a 25 cent margin on either side
6. Repository miles were taken from Google Maps
7. GSSWI will cover the ferry fare for the car and driver both ways
8. Field Trip Director will recalculate if fuel price is under $2.50 or over $2.999
